

- | | | | |
|---|---|---|--|
|  | maint branch (stable, bugfix, release) |  | a git branch |
|  | master branch (stable, new features, devel) |  | create a new git branch from the indicated branch/commit |
|  | next branch (testing) |  | create a regular commit (with one parent) in current branch |
|  | feature branch - usually starts from master |  | create a merge commit. Dark line is from first parent (current branch). Light (arrow) line is from feature/bugfix/other branch |
|  | bugfix branch - usually starts from maint |  | merge "release" from master to maint (usually fast-forward) |
| | |  | this git history is discarded at the next release |
